Mockito
JUnit Framework
What is Mocking?
Mockito Features
PowerMock Integration
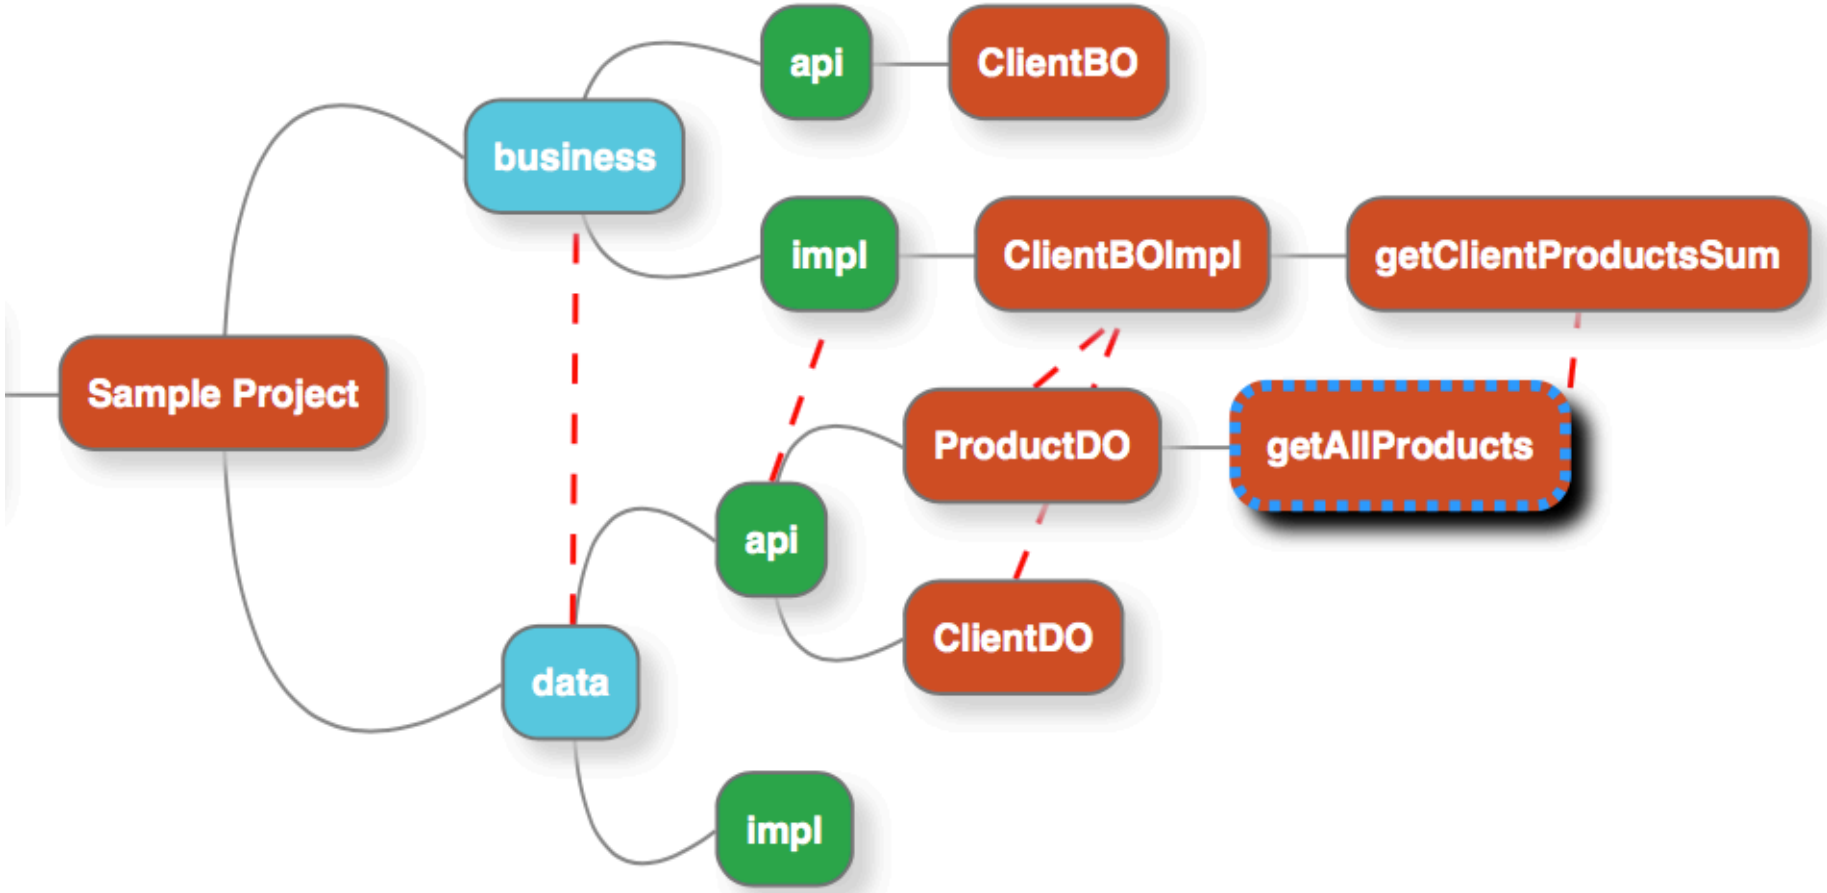
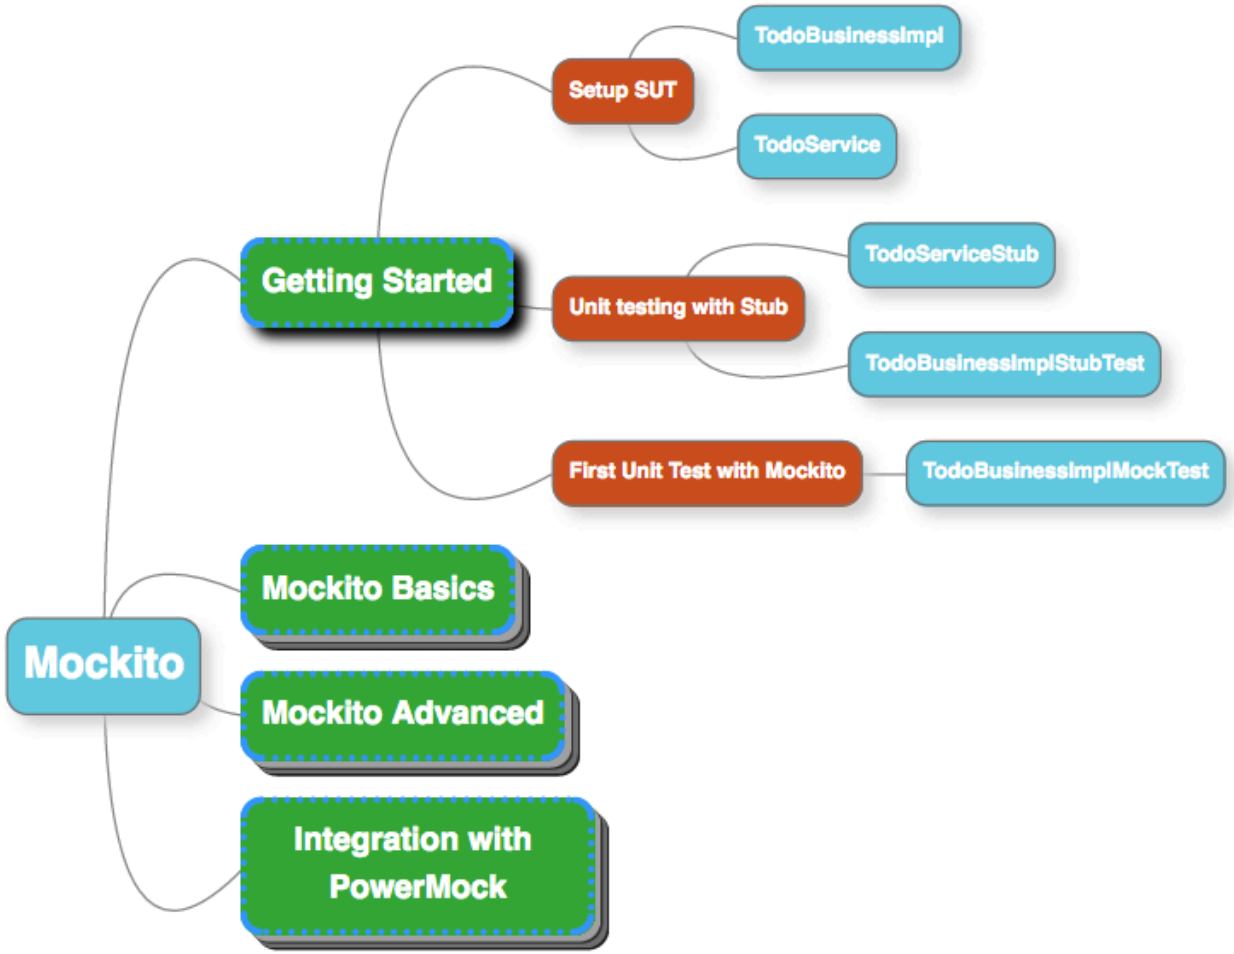
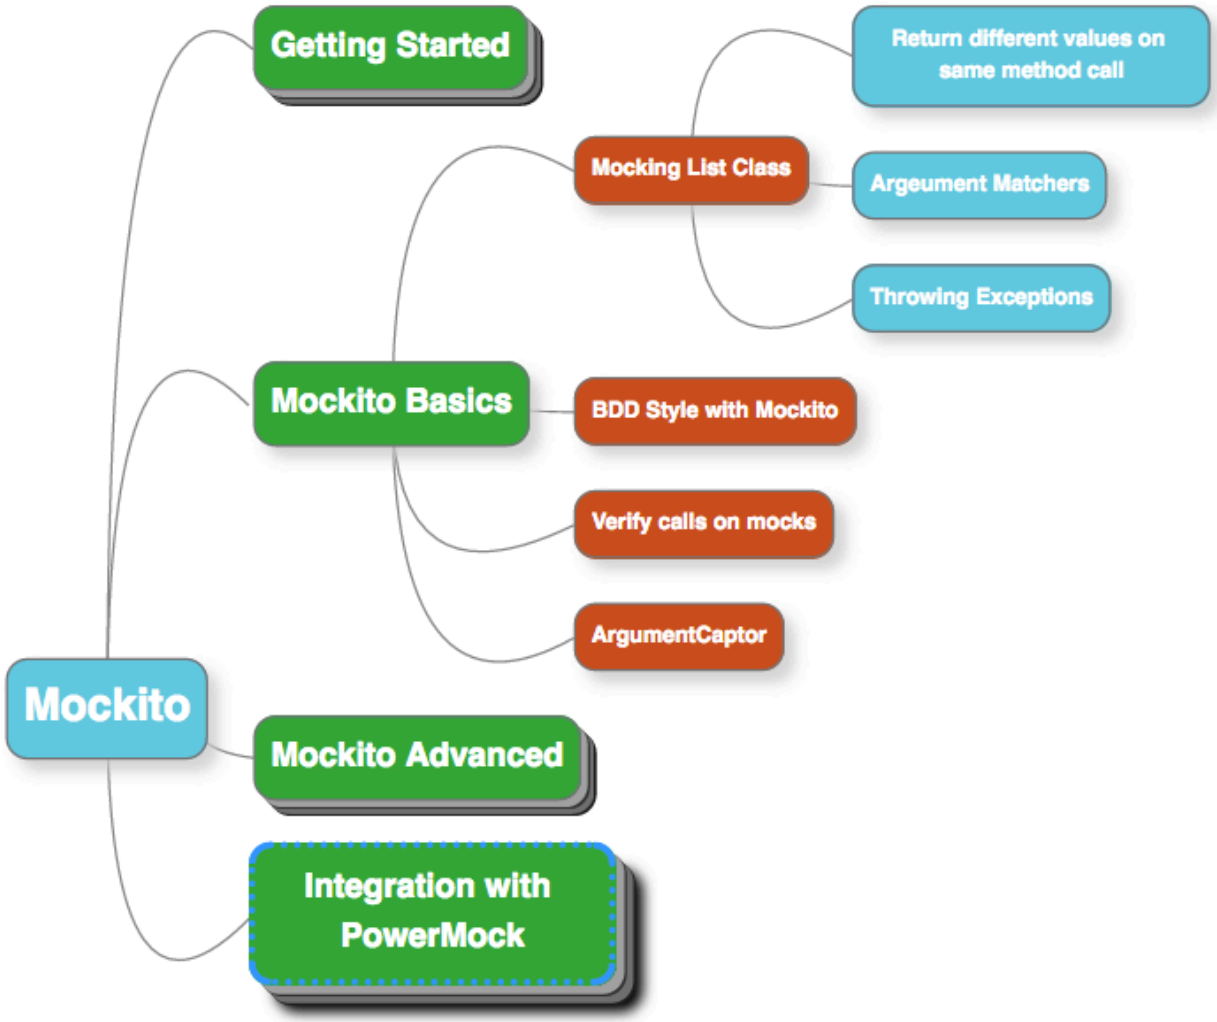
Mock Static Methods
Mock Constructors
Unit Test Private Methods



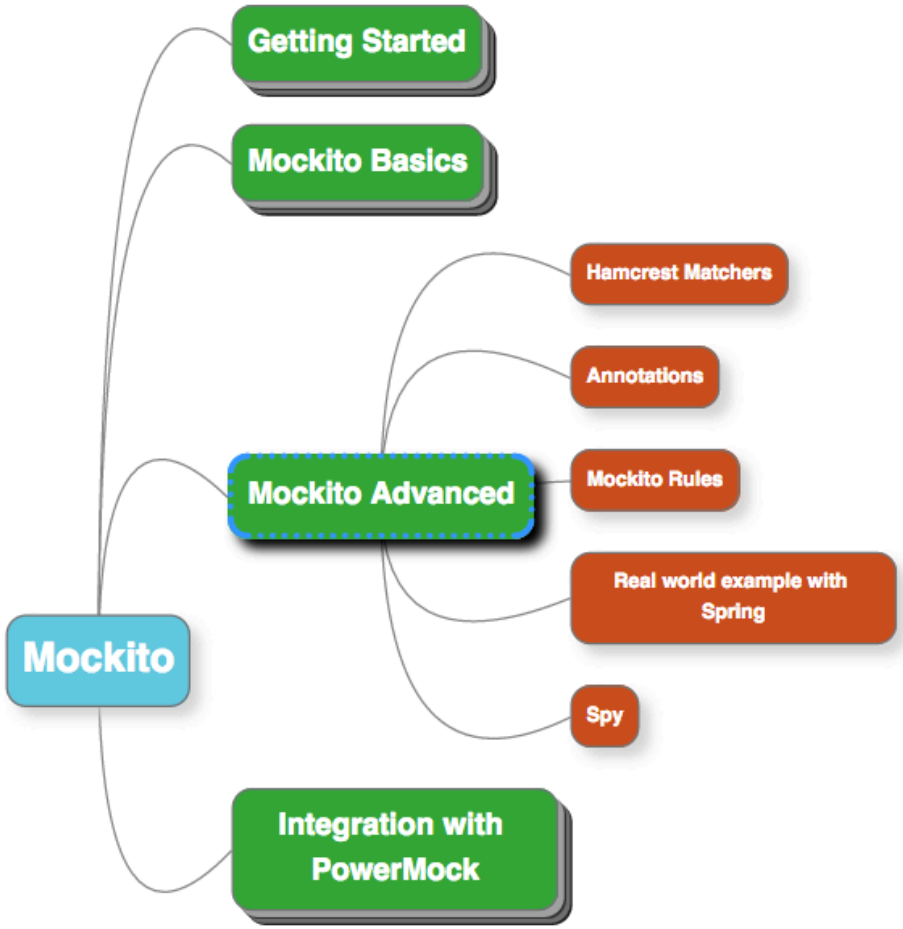
Sample Project
business
api
ClientBO
impl
ClientBOImpl
getClientProductsSum
ProductDO
getAllProducts
api
ClientDO
data
impl



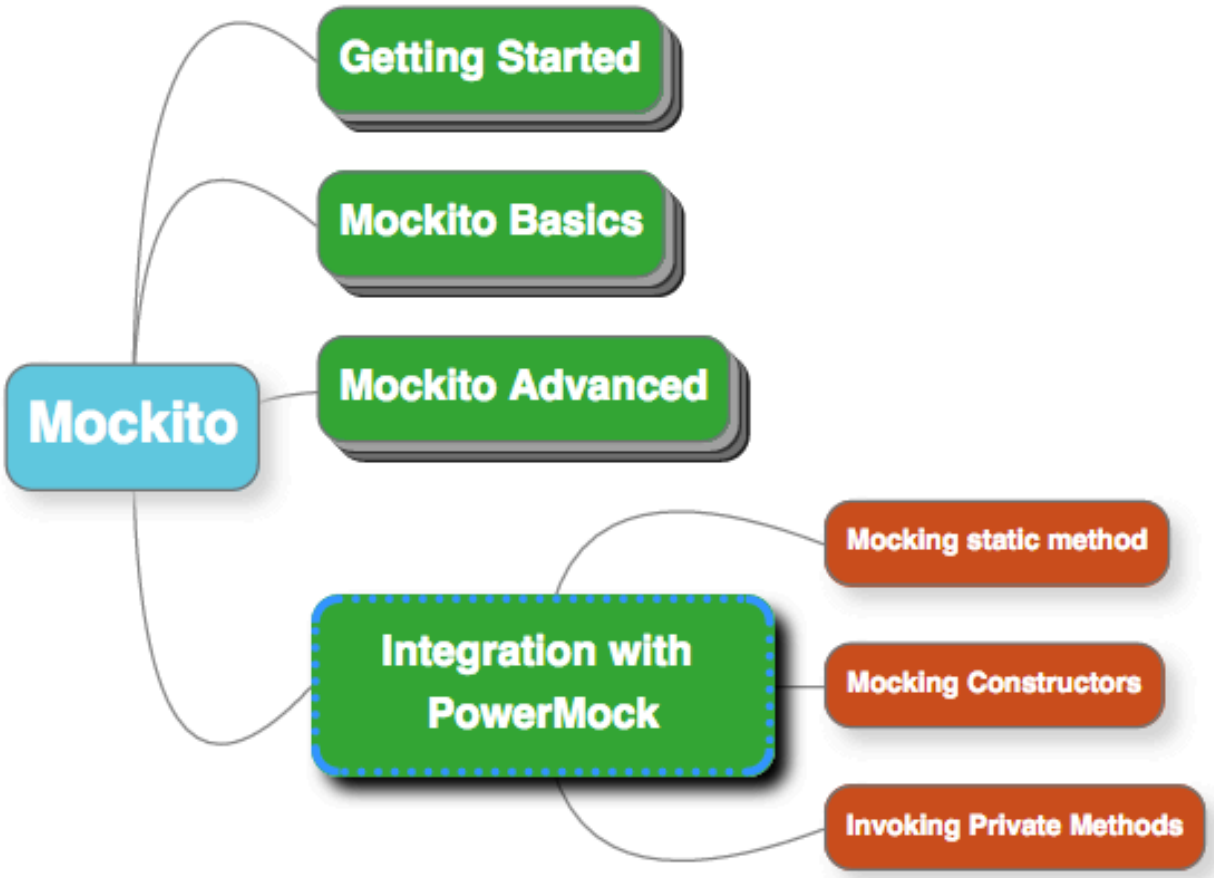
Mockito
Getting Started
Setup SUT
TodoBusinessImpl
TodoService
Unit testing with Stub
TodoServiceStub
TodoBusinessImplStubTest
First Unit Test with Mockito
TodoBusinessImplMockTest
Mockito Basics
Mockito Advanced
Integration with PowerMock



Mockito
Getting Started
Mockito Basics
Mocking List Class
Return different values on same method call
Argeument Matchers
Throwing Exceptions
BDD Style with Mockito
Verify calls on mocks
ArgumentCaptor
Mockito Advanced
Integration with PowerMock



Mockito
Getting Started
Mockito Basics
Mockito Advanced
Hamcrest Matchers
Annotations
Mockito Rules
Real world example with Spring
Spy
Integration with PowerMock



Mockito
Getting Started
Mockito Basics
Mockito Advanced
Integration with PowerMock
Mocking static method
Mocking Constructors
Invoking Private Methods
